STATESBORO, GEORGIA 30459-0348

December 29, 2011

To The Honorable Mayor, City Council,
and Citizens of the City of Statesboro:

The **Comprehensive Annual Financial Report (CAFR)** of the City of Statesboro, Georgia for the fiscal year ended June 30, 2011 is submitted herewith. This report was prepared by the City's Finance Department. Responsibility for the completeness and accuracy of the report rests with the City's management. We believe the data presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position, results of operations and cash flows of the City as measured by the financial activity of its various funds; that the statements and underlying financial data have been prepared in conformity with generally accepted accounting principles (GAAP) and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

City management's narrative on the financial activities of the City for the fiscal year ended June 30, 2011, is included in the Management's Discussion and Analysis (MD&A) section of this report, immediately following the independent auditor's report. The letter of transmittal is written to compliment the MD&A and the financial statements, and should be read from that perspective and in conjunction with all other CAFR sections.

PROFILE OF THE CITY

The City of Statesboro was created by an act of the General Assembly of the State of Georgia on December 19, 1803. The City operates under the Council/Manager form of government, providing the following services as authorized by its charter: public safety (police and fire), streets and drainage, community development, community services and general administrative services. The City also operates two public utilities (a water and sewer system and a natural gas distribution system) and provides sanitation collection and disposal services. The City and Bulloch County jointly operate a transfer station for transport of solid waste and an inert landfill.

The City reports a 2010 estimated population of, 28,522, which is based upon the 2010 United States Census Bureau. This is less than 1% of the total State of Georgia population. 22.9% of the Bulloch County population lives below the federal poverty level as compared to 14.5% in the State of Georgia. However, this number is impacted by the fact that 20,000 university students, when

filling out census forms, do not have significant earned income. Georgia Southern University's Bureau of Business Research and Economic Development in a recent study confirmed that the non-student population has a much higher per capita income than the census for this reason; and, the university student population has a considerable amount of disposable income, though little earned income, as they are predominantly supported financially by parents.

The City of Statesboro is the county seat of Bulloch County, Georgia, located in the southeastern corner of the state. It is included on the southern leg of the Savannah River Parkway, a four-lane connector between Savannah and Augusta. It is located 53 miles west of Savannah, 76 miles south of Augusta, 121 miles east of Macon, 144 miles southwest of Charleston, SC, 168 miles north of Jacksonville, FL, and 199 miles southeast of Atlanta. Statesboro is 15 miles from Interstate 16, and is located on US Highways 301, 80, and 25, and State Routes 73, 46, 67, and 24.

The City is approximately 14.41 square miles with an average elevation of 240 feet above sea level, the terrain being mostly flat. The climate is seasonal, but moderate, with mild winters and warm, humid summers. The average high is 58 degrees in January and 91 degrees in July. The average annual rainfall is 47.0" and the relative humidity is 69% in January and 72% in July.

Statesboro is served by the Heart of Georgia Railway Company and numerous common freight carriers. The City and Bulloch County jointly own the Statesboro Municipal Airport that is located approximately 30 minutes from Interstate 16. It is 45 minutes from the Savannah/Hilton Head International Airport, which is serviced by 6 major airlines. The City of Statesboro also is located approximately fifty miles from the Georgia Ports Authority's Savannah terminal, and is within a reasonable distance of the ports of Charleston, Beaufort, Brunswick, and Jacksonville.

There are two institutions of higher learning located in the greater Statesboro area: Georgia Southern University (GSU) within the city limits, and Ogeechee Technical College just outside the city on US Highway 301 South. Accredited by the Southern Association of Colleges and Schools and Georgia's largest and most comprehensive center of higher education south of Atlanta, Georgia Southern offers more than 117 undergraduate and graduate degree programs through the doctoral level in its eight Colleges. The University's 20,000+ students come from 49 U.S. states and 100 nations.

Ogeechee Technical College is accredited by the Commission of the Council on Occupational Education and adheres to statewide curriculum standards established by the Georgia Department of Technical and Adult Education. OTC offers 125 programs of study including 36 diploma programs, 70 certificate programs, and 19 Associate degrees in conjunction with Georgia Southern University and East Georgia College. There are 15 public schools, 3 private and parochial schools, and 1 charter school in Bulloch County educating the county's 9,367 students. A total of 554 seniors graduated from these schools in 2011.

Statesboro is a leader in health care in southeast Georgia with East Georgia Regional Medical Center, a 150-bed hospital, employing more than 730 staff and 95 physicians representing a wide range of specialties. The hospital is accredited by the Joint Commission on Accreditation of

Healthcare Organizations, a distinction that is awarded only to those healthcare facilities that maintain the highest standards of quality.

The City is served by 6 local radio stations, WHKN, WMCD, WPMX, WPTB, WWNS and WVGS, and one daily newspaper, the *Statesboro Herald*. In addition, the *Savannah Morning News* reports on the news in Statesboro. Statesboro is covered locally by Northland Cable TV, which is located in the city. The City of Statesboro, Georgia Southern University, and Northland Cable TV have partnered to provide the community with a local government access channel, operated by the Communication Arts Department of GSU. Three television stations in Savannah also cover Statesboro regularly: WTOC (CBS), WJCL (ABC), and WSAV (NBC).

The City has 119 miles of roads of which 118 are paved. Natural gas is sold to 3,556 customers while water and sewer service is provided by the City to over 13,000 customers with an average daily water consumption of 2.79 million gallons. Statesboro has 184 miles of sanitary sewer and 219.5 miles of water mains with 1,487 fire hydrants. The City maintains a Class 3 ISO rating with 2 fire stations.

Utilities are provided by the following within the City:

City of Statesboro	Water and Sewer, Sanitation and Natural Gas
Excelsior EMC	Electricity
Georgia Power Company	Electricity
Frontier Communications	Telecommunications
Bulloch Rural Telephone	Telecommunications
Northland Cable TV	Telecommunications

ECONOMIC CONDITION AND OUTLOOK

Statesboro has an economy comprised of an industrial base, a growing university, expanding retail activity, and a regional medical center. The City has a highly diversified economy with several major industries located in the area and is a regional shopping center and health care provider for eight surrounding Georgia counties (Effingham, Screven, Jenkins, Emanuel, Candler, Evans, Tattnall, and Toombs).

The 2010 Statesboro per capita income was \$12,620 or 53% of the State of Georgia per capita income. Per capita income is total personal income (including wages, dividends, interest, rent, and government payments) divided by the total population. It is commonly used as an indicator of the quality of consumer markets and the economic wellbeing of a community. As noted above, this figure is actually skewed lower by the high number of university students who do not report earned income, but have considerable disposable income.

The area offers many educational and vocational opportunities that provide a competitive advantage for a strong workforce. The November 2011 unemployment rate was 12.7%, above the State of Georgia at 9.9% and the national rate of 8.6%. Approximately 29.1% of the Bulloch County civilian labor force is employed by the government sector including one of the City's largest employers, Georgia Southern University. Other government employers include Bulloch County, Bulloch County Board of Education, Ogeechee Technical College, and the City of

Statesboro. Major private sector employers in the City include East Georgia Regional Medical Center and Wal-Mart Supercenter.

The City and County are experiencing moderate growth with the City approving 266 new building permits in 2010, and 183 in 2011. The cost of housing in Bulloch County is among the lowest in the nation. The average residential sales price is \$134,750. The median value of owner occupied units was \$109,200.

MAJOR INITIATIVES

For The Year. In FY 2011, The Engineering Department expended \$226,387 in SPLOST funds to finance drainage improvements, street repaving, street striping and installation and repairs of sidewalks.

SPLOST dollars totaling \$745,321 were expended to purchase police vehicles, a new fire engine and personal protection equipment for the fire department.

The City's Water and Sewer Department expended \$354,347 in SPLOST funds to finance emergency sewer line repairs, emergency well repairs, and water and sewer extensions. Engineering fees and construction costs for the extension of water and sewer lines along Old Register Road, the Southeast Quadrant and Lakeview Road were funded by bond proceeds in the amount of \$1,233,487.

For The Future. A 2007 SPLOST initiative approved in July, 2006, will provide the City with an estimated \$21.7 million in funding for capital projects for FY 2008 - FY 2014.

For FY 2012, the Engineering Department has budgeted \$2,488,500 for street striping, sidewalk repairs, drainage improvements, storm water projects, street repaving, intersection improvements and traffic signal improvements.

Public Safety has budgeted \$678,728 for police vehicles and conversions, personal protection equipment and a relocation of a fire station.

The Water and Sewer Department has budgeted \$1,700,000 for water and sewer rehab projects, extension of water and sewer lines to unserved areas and to replace filters at the waste water treatment plant.

The Solid Waste Collection fund has \$224,000 of SPLOST dollars budgeted for equipment replacement.

In FY 2012, landfill closure/post-closure expenses and air rights in the Wayne County Landfill will continue to be funded by 2007 SPLOST in the amount of \$1,392,000.

FINANCIAL INFORMATION

In developing and evaluating the City's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, the reliability of financial statements, and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits

likely to be derived; and the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the City's internal control structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

The City's accounting records for general governmental operations are maintained on a modified accrual basis and reported on the same basis at the fund financial reporting level. However, at the government-wide financial reporting level, these activities are presented on the accrual basis.

The City's enterprise funds account for the cost of services using an "economic resources" measurement focus. This means that all assets and liabilities (whether current or non-current) associated with the funds are included on their balance sheets. Their operating statements present increases (revenues) and decreases (expenses) in net total assets. The accrual basis of accounting is used for the proprietary funds.

Budgeting Controls. Budgets have been adopted and appropriated at the fund level for each City governmental fund. Budgetary control is maintained at the line-item level by the rendering of monthly reports of revenues and expenditures. Major variances between budget and actual are reviewed monthly with the City Council on an exceptions basis. Unexpended appropriations lapse at year-end for budgetary purposes and are subject to reappropriation in the following year.

Long-term Financial Planning. The City of Statesboro maintains a flexible, yet thorough five year capital improvement plan whereby capital needs are identified several years before funding and implementation, to allow adequate time for planning. This plan also provides for the orderly replacement of facilities and equipment. The City's current five year plan has identified \$45,332,410 in projected expenditures through FY 2017. In FY 2012, the City has budgeted \$10,807,678 in projected expenditures, with \$6,483,228 being funded from the 2007 Special Purpose Local Option Sales Tax and \$1,950,000 being funded from the water and sewer revenue bond for water and sewer line extensions. The projects funded from the 2007 SPLOST include \$2,488,500 in street projects, \$450,000 for fire equipment and station relocation, \$229,000 for police vehicles, \$1,700,000 for water and sewer projects, \$224,000 for solid waste equipment, and \$1,392,000 for solid waste disposal projects.

OTHER INFORMATION

Independent Audit. State law requires annual audits of the accounting records by independent certified public accountants selected by the City Council. This requirement has been met, and the auditor's opinion is included in this report. The goal of the independent audit is to provide reasonable assurance that the financial statements are free of material misstatement. The audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial presentation. The auditor's examination encompassed the basic financial statements for the fiscal year ended June 30, 2011.

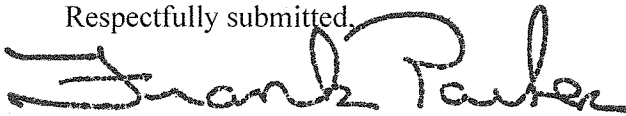

Awards. In 2011, the City received the Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. A Certificate of Achievement for Excellence in Financial Reporting is a prestigious national award presented by the Government Finance Officers Association of the United States and Canada to government units whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting, A government must publish an easily

readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. This is the seventh consecutive year the City has received this award.

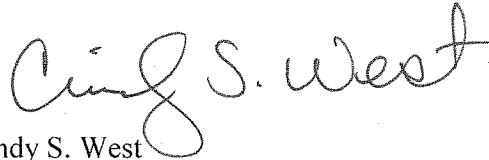

Also in 2010, the City received the Distinguished Budget Presentation Award for the fiscal year beginning July 1, 2010 from the Government Finance Officers Association of the United States and Canada (GFOA). This award is the highest form of recognition in governmental budgeting. It is presented to governments whose budgets adhere to program standards and its attainment represents significant achievement by the organization in providing a budget document that clearly presents financial, accounting, and policy information. In order to receive this award a government must publish a budget document which meets program criteria as a policy document, financial plan, operations guide, and as a communications device. This is the seventh consecutive year the City has received this award. Both the Certificate of Achievement and the Distinguished Budget award are valid for a period of one year. The City has sent in its application for the GFOA Distinguished Budget Presentation Award, but at this time has not received any notification.

Acknowledgments. We wish to express our gratitude and appreciation to the members of the staff of the City of Statesboro Finance Department for their assistance and support in the preparation of this report. We wish to acknowledge the guidance and technical support provided by our independent auditors, Thigpen, Lanier, Westerfield & Deal.

Respectfully submitted,

Frank C. Parker, III

INDEPENDENT AUDITOR'S REPORT

To the City Council
City of Statesboro, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Statesboro, Georgia, as of and for the year ended June 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Statesboro, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Statesboro, Georgia as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the General Fund and the Statesboro Fire Service Special Revenue Fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2011, on our consideration of the City of Statesboro, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our

audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Statesboro, Georgia's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules and schedule of SPLOST expenditures, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules, schedule of SPLOST expenditures are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Thigpen, Lanier, Westerfield + Deal

Management's
Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the City of Statesboro, Georgia's (the City's) annual financial report, the City's management is pleased to provide this narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2011. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The City had total net assets (assets exceeded liabilities) of \$65,893,155 at 2011 fiscal year-end. That is \$3,368,381 or 5.4%, higher than the total net assets of \$62,524,774 at 2010 fiscal year-end. Fiscal year 2010 had seen a \$3,637,236 or 6.2%, increase in total net assets.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt, of \$55,419,713 include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets. The figure for fiscal year 2010 was \$55,278,434. That is a increase of \$141,279, or .3%. There was a decrease of \$1,754,129, or 3.1%, for fiscal year 2010.
 - (2) Net assets of \$7,233,166 are restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations. That is \$1,791,660, or 32.9%, more than the fiscal year 2010 amount of \$5,441,506. That was \$4,093,946 (or 304%) more than fiscal year 2009's \$1,347,560. The large increase in restricted net assets is a result of the receipt of \$2,319,900 in 2007 SPLOST funds that were not spent as of June 30, 2011.
 - (3) Unrestricted net assets of \$3,240,276 represent the portion available to maintain the City's continuing obligations to citizens and creditors. This is a \$1,435,442 (or 79.5%) increase over the fiscal year 2010 total of \$1,804,834. That amount was a \$1,297,419 (or 255%) increase over fiscal year 2009's figure of \$507,415. FY 2009 had seen a \$1,059,406 (or 67.6%) decrease over FY 2008's amount. In fiscal year 2011, unrestricted net assets for business-type activities increased by \$1,714,397 primarily due to an increase in revenues for the Water and Sewer Operating Fund. The unrestricted net assets for the governmental activities in fiscal year 2011 declined by \$278,955 (or 173%) primarily due to the increase in the other post-employment benefits liability.
- The City's governmental funds reported total ending fund balance of \$6,623,957, compared to \$4,294,517 in fiscal year 2010. This is a \$2,329,440 (or 54.2%) increase. The primary reason is an increase in fund balance in the 2007 SPLOST fund. The City did not start receiving its portion of the 2007 SPLOST for certain projects until February 2010 after other SPLOST projects had been completed according to the SPLOST agreement. The fiscal year 2010 ending fund balance for governmental funds showed an increase of \$2,225,691 (or 107.6%).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$(33,145). That compares to \$(98,438) for fiscal year 2010. Fiscal year 2009's unassigned fund balance for the General Fund was \$947,789, or 6.7% of total General Fund expenditures and transfers out.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of position presenting information that includes all of the City's assets and liabilities, with the difference between them reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other non-financial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by sales and property taxes from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, and public works. Business-type activities include the natural gas distribution system, the water and wastewater systems, and the solid waste collection and disposal systems.

The government-wide financial statements are presented on pages 14 & 15 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all other (non-major) funds are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The City has two kinds of funds:

1. *Governmental funds* are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 16-22 of this report.

Individual fund information for non-major governmental funds is found in combining statements in a later section of this report.

2. *Proprietary funds* are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City's proprietary funds are classified as enterprise funds. These enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization for gas, water and wastewater utilities; and for solid waste collection and disposal systems.

The basic enterprise fund financial statements are presented on pages 23-26 of this report.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 27 of this report.

Supplementary Information

In addition to the basic financial statements and accompanying note disclosures, this report also presents certain required supplementary information concerning the City's budget presentations. The budgetary comparison statement is included as a basic financial statement for the General Fund and the Statesboro Fire Service Fund. Budgetary comparison schedules for all other governmental funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the City's adopted and final revised budget. During the fiscal year, the Mayor and City Council adopted by resolution one budget amendment, or revision, to the original budget resolution.

As discussed, the City reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in this section of this report beginning on page 50.

Financial Analysis of the City as a Whole

The City's net assets at fiscal year 2011 were \$65,893,155, compared to the fiscal year 2010 figure of \$62,524,774. The following table provides a summary of the City's net assets:

Summary of Net Assets

	Governmental Activities		Business-type Activities		Total		Percentage of Total	
	2011	2010	2011	2010	2011	2010	2011	2010
Assets:								
Current assets	\$8,329,576	\$ 6,701,131	\$ 6,166,213	\$ 4,962,182	\$ 14,495,789	\$ 11,663,313	16%	13%
Capital assets	25,662,398	25,932,860	43,733,540	42,795,839	69,395,938	68,728,699	75%	77%
Other noncurrent assets	-	-	7,999,802	9,141,567	7,999,802	9,141,567	9%	10%
Total assets	33,991,974	32,633,991	57,899,555	56,899,588	91,891,529	89,533,579	100%	100%
Liabilities:								
Current liabilities	1,775,434	2,479,401	2,168,436	2,151,710	3,943,870	4,631,111	15%	17%
Long-term liabilities	1,985,078	1,952,210	20,069,426	20,425,484	22,054,504	22,377,694	85%	83%

Net assets:								
Investment in capital assets, net of debt	24,229,149	24,168,198	31,190,564	31,110,236	55,419,713	55,278,434	84%	88%
Restricted	6,442,494	4,195,408	790,672	1,246,098	7,233,166	5,441,506	11%	9%
Unrestricted	(440,181)	(161,226)	3,680,457	1,966,060	3,240,276	1,804,834	5%	3%
Total net assets	\$ 30,231,462	\$ 28,202,380	\$ 35,661,693	\$ 34,322,394	65,893,155	62,524,774	100%	100%

The current ratio divides the current assets by the current liabilities, and is an indication of the ability to pay current obligations. For fiscal year 2011, the current ratio for governmental activities is 4.7 and 2.8 for business type activities. For fiscal year 2010, the current ratio for governmental activities was 2.7, and for business type activities 2.3. For the City, overall, the current ratio for fiscal

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

City of Statesboro, Georgia

June 30, 2011

year 2011 is 3.7, compared to 2.5 for fiscal year 2010. For fiscal year 2009, the current ratio for governmental activities was 1.8 and for business type activities 1.3. For the City, overall, the current ratio was 1.5.

Net assets for fiscal year 2011 increased by \$2,029,082 for governmental activities, and by \$1,339,299 for business-type activities. Net assets for fiscal year 2010 increased by \$2,528,818 for governmental activities and by \$1,108,418 for business type activities.

Note that in fiscal year 2011, 80.1%, and in fiscal year 2010, 85.7% of the governmental activities' net assets were invested in capital assets. On the business type activities, the City has spent 87.5% of its net assets in fiscal year 2011, and 90.6% in fiscal year 2010 on capital assets. This is not unusual, as the business type activities are primarily utilities, which are very capital-intensive operations. Expansion of these systems is necessary for the continued growth of the City and for its financial position, as these utility systems generate considerable revenues for all the City's operations. 84.1% in fiscal year 2011, and 88.4% in fiscal year 2010 of the City's total net assets were included in capital assets.

The following table provides a summary of the changes in net assets, with comparative data for both fiscal years 2011 and 2010:

	2011				2010			
	Governmental Activities	Business Activities	Total	Percentage of Total	Governmental Activities	Business Activities	Total	Percentage of Total

GOVERNMENTAL REVENUES

Bulloch County (including the City of Statesboro) is one of only eight counties out of 159 in Georgia that do not receive any of the 1% Local Option Sales Tax (LOST). A local Constitutional Amendment was passed by the Georgia General Assembly in the 1981 Session (Georgia Laws, 1981, p. 1931) which called for a referendum on the question of whether or not the local option sales tax should go to the Bulloch County Board of Education, with a dollar for dollar reduction in the school property tax. (Boards of Education in Georgia are limited to a maximum millage rate of 20.) The referendum passed on November 2, 1982. Since that time, this money has gone to the Board of Education. Since most Georgia counties and cities negotiate a formula to distribute this sales tax among the county and city governments in that county, this puts both the City of Statesboro and Bulloch County government at a distinct disadvantage relative to almost all the other cities and counties in the state. It means that we have to rely more heavily on the local property tax and user fees than these other cities and counties. For example, if the City and County had equally split this approximately \$9,872,925 in local option sales taxes in fiscal year 2011, the City would have had \$4,936,462 in additional revenue. That is more than the City collected in property taxes. In effect, the City could have done away with its property tax levy totally if not for this local legislation and referendum in the early 1980's.

However, the City of Statesboro and Bulloch County (and the other cities in the county) do share the proceeds of a 1% Special Purpose Local Option Sales Tax (SPLOST), which has passed referendums in both 2002 for a five-year term and in 2006 (beginning collections in 2007) for a six-year term. In fiscal year 2011, sales taxes of \$5,320,853 out of \$17,688,470 in total governmental funds revenues, or 30.1%, were received from the 2002 SPLOST and the 2007 SPLOST. Of that money, \$1,760,996 was transferred to the business-type funds for capital projects (water and sewer and solid waste disposal systems). The remaining, \$3,559,857, will be used primarily for governmental activities, or 20.1% of the governmental funds' total revenues. In addition, all of that money will be spent on capital outlay, not operating costs, as the SPLOST funds are earmarked by state law specifically for capital outlay only. Similarly, in fiscal year 2010, \$5,332,133 in sales taxes represented 29.5% of the \$18,058,954 in governmental funds revenues. However, all of it was used to finance capital projects.

The City is heavily reliant on taxes to support governmental activities operations. In total, taxes make up 46.0% of revenues as compared to 44.6% in fiscal year 2010. Property taxes provided \$3,882,316 or 21.9% of the City's total governmental activities revenue as compared to 21.8% in fiscal year 2010.

Also, note that program revenues covered 54.9% in fiscal year 2010, and 58.7% in fiscal year 2010 of governmental operating expenses. This means that the government's taxpayers and the City's other general revenues funded the remaining 45.1% in fiscal year 2011, and 41.3% in fiscal year 2010 of the governmental activities. As these documents, the general economy and the local businesses have a major impact on the City's revenue streams.

GOVERNMENTAL FUNCTIONAL EXPENSES

The public safety function comprises 51.6% of the City's total governmental activity expenses and 26.1% of the total City expenses in fiscal year 2011. In fiscal year 2010, the figures were 52.6% and 26.8% respectively. In fiscal year 2011, general government totaled 13.9% of the total governmental activity expense, and 7.0% of the total City expenses. In fiscal year 2010, general government totaled 13.9% of the total governmental activity expenses, and 7.1% of the total City expenses. Of the total \$17 million of governmental expenses, depreciation is 10.2% of that total. In fiscal year 2010, the numbers were \$17 million and 10.3% respectively.

The following table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that were placed on the City's taxpayers by each of these functions.

	Governmental Activities			
	2011		2010	
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
General government	\$ 2,368,425	\$ 1,440,439	\$ 2,364,710	\$ 1,703,251
Municipal court	622,589	622,589	603,544	603,544
Public safety	8,806,859	5,088,496	8,935,759	4,851,381
Public works	2,634,834	(1,737,407)	2,530,638	(2,411,915)
Community development	553,860	553,860	534,041	534,041
Parks and cemeteries	458,607	458,607	514,166	514,166
Engineering	597,136	244,566	850,662	565,775
Planning and zoning	477,485	477,485	326,066	326,066
Community services	519,484	519,484	284,557	284,557
Interest	42,893	42,893	34,202	34,202
Total	17,082,172	\$ 7,711,012	16,978,345	\$ 7,005,068

For fiscal year 2011 and 2010, all functions required a subsidy from general revenues except for public works in fiscal year 2011. In fiscal year 2011 and 2010, \$4,342,411 and \$4,444,299, respectively, in SPLOST revenue received from the County was included in program revenue for public works.

BUSINESS-TYPE ACTIVITIES

Revenues vs. Expenses

For fiscal year 2009, the operating revenues for the utility funds were 4.5% lower than 2008 and operating expenses were 2.4% below fiscal year 2008. Within the total business type activities of the City, these activities reported \$1,328,682 in operating income, or a decrease of 24.1% compared to fiscal year 2008. After transfers in and out between other funds, these funds reported a loss of \$1,317,492, or a decrease of \$2,257,047, compared to fiscal year 2008. The primary reasons for this decrease were due to a decrease in water usage and larger transfers from the enterprise funds to the general fund.

For fiscal year 2010, the operating revenues for utility funds were 3.2% higher than 2009 and operating expenses were 3.5% below fiscal year 2009. Within the total business type activities of the City, these activities reported \$2,463,461 in operating income, or an increase of 85.4% compared to fiscal year 2009. After transfers in and out between other funds, these funds reported a gain of \$1,265,553, or an increase of \$2,583,045, compared to fiscal year 2009. The primary reason for this increase was an increase in rates for services in the enterprise funds.

For fiscal year 2011, the operating revenues for utility funds were 4.1% higher than 2010 and operating expenses were .7% higher than fiscal year 2010. Within the total business type activities of the City, these activities reported \$3,102,868 in operating income, or an increase of 26% compared to fiscal year 2010. After transfers in and out between other funds, these funds reported a gain of \$1,465,081, or an increase of \$199,528, compared to fiscal year 2010. The primary reason for this increase was an increase in rates for services in the enterprise funds.

Each specific fund reported the following operating income or loss:

	2011		2010	
	<u>Amount</u>	<u>Percent Change</u>	<u>Amount</u>	<u>Percent Change</u>
Water and sewer fund	\$2,245,403	14.6%	\$ 1,960,152	106.3%
Reclaimed water sewer fund	\$1,017	0%	\$ 0	
Gas fund	\$1,051,021	3.5%	\$ 1,015,231	1.0%
Solid waste collection fund	\$764,371	38.6%	\$ 551,434	2.6%
Solid waste disposal fund	\$ (958,944)	9.8%	\$ (1,063,356)	8.6%

The operating income for the water and sewer fund increased by 14.6% in fiscal year 2011 since operating revenues were up 11.0% primarily due to an increase in water and sewer rates and operating expenses only increased 9.9%.

The gas fund's operating income increased by 3.5% over fiscal year 2010. Operating revenues were down 1.4% and operating expenses were down 2.5% primarily because of a decrease in the cost of natural gas.

The solid waste collection fund's operating income increased 38.6% from last year since operating revenues were 3.7% above fiscal year 2010 and expenses were 5.7% below fiscal year 2010.

Finally, the solid waste disposal fund's operating loss decreased by 9.8% from fiscal year 2010. Operating revenues decreased by 9.5% and operating expenses decreased by 9.6%. The revenues do not cover all expenses, and SPLOST is therefore used to make up the difference.

The City transfers resources from its enterprise funds to the general fund for the following reasons:

- Since the City does not do any indirect cost allocation, the transfers help cover the General Fund's indirect costs that could be charged to the enterprise funds as indirect costs. These costs include the various staff divisions, such as personnel, finance, purchasing, and records, as well as part of the City Manager's time.
- If these enterprise funds were privately owned, the City would be entitled to a franchise fee equal to 5% of the gross revenues, similar to CATV, electricity, or telephone service providers. These transfers offset some of these costs.
- If these enterprise funds were privately owned, the City would be entitled to property taxes on the property in service, net of accumulated depreciation, similar to CATV, electricity, or telephone service providers. These transfers are made in lieu of property taxes.
- If these enterprise funds were privately owned, their approved rate tariffs would include a reasonable return on shareholder equity. Since the City's taxpayers are in fact the investors who started and financed these operations, they are being rewarded with a comparable return on equity in the form of lower property taxes. This return can be made while still maintaining retail rates that are at or below the surrounding market prices offered by private utility companies. For example, the City's natural gas system rates are considerably lower than any investor-owned utility or private gas marketer in our geographic area.
- Hosting a sizable regional university, as well as being the county seat, results in a considerable amount of state and county property not being subject to property taxation. However, services such as police, fire, street repair and cleaning, and traffic signalization must be provided and expanded as needed, and must be funded from general revenues. Transfers from the enterprise funds help offset this burden, while sharing it more equitably among all citizens and institutions.

June 30, 2011

The solid waste disposal fund recognized a transfer in from the 2007 SPLOST fund of \$1,299,024 in fiscal year 2011, which was used for the purchase of landfill space (air rights) in the Wayne County Solid Waste Landfill and for post-closure costs for our Lakeview Landfill.

Financial Analysis of the City's Funds

Governmental Funds

Governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$6,623,957 in fiscal year 2011, compared to \$4,294,517 in fiscal year 2010, and \$2,068,826 in fiscal year 2009. Of these year-end totals, \$6,489,602 (or 98%) in fiscal year 2011 and \$4,177,795 (or 97%) in fiscal year 2010 was restricted for specific purposes and not available for continuing city service requirements.

The total ending fund balances of governmental funds show an increase in fiscal year 2011 of \$2,329,440 or 54.2% compared to a decrease in fiscal year 2010 of \$2,225,691 or 107.6%. This fiscal year 2011 and 2010 increase is primarily the result of the City receiving 2007 SPLOST funds of \$2,319,900 over amounts spent during the year for 2011 and \$3,204,247 for 2010.

Major Governmental Funds

The General Fund is the City's primary operating fund and the largest source of day-to-day service delivery. The General Fund's fund balance increased by \$82,354 in fiscal year 2011. The General Fund's fund balance decreased by \$1,022,689 in fiscal year 2010, and decreased by \$527,298 in fiscal year 2009 and by \$1,115,834 in fiscal year 2008. The decreases in 2008 and 2009 were planned uses of fund balance to help finance the Averitt Arts Center operations and the new Police Station. The decrease in 2010 was the result of budgeting for a deficit, the settlement of a lawsuit by a former employee, and making a large transfer to the Benefits Insurance Fund because of increased health insurance costs.

Total taxes for the general fund were \$7,693,363, or 1.4% higher than in fiscal year 2010. Total property taxes in fiscal year 2011 were \$3,695,637 compared to \$3,704,711 in fiscal year 2010. In fiscal year 2010, total taxes were \$7,585,112, or 1.9% higher than the \$7,443,083 in fiscal year 2009.

The general fund's total expenditures decreased by \$289,451 or 2.4%, in fiscal year 2011 compared to a decrease of \$344,912 or 2.7%, in fiscal year 2010.

The General Fund's ending unassigned fund balance (\$33,145) represents the equivalent of (.3%) of the \$13,251,481 in annual expenditures and transfers out budgeted for the next fiscal year. The City's overall cash flow varies little from month to month. The only real peak is in the December-February timeframe, when property taxes become due, then delinquent. The reason for this is that the utility revenues are consistent on a monthly basis, and other General Fund revenues come in during months when property taxes do not. Given this relatively stable cash flow environment, the City has set a target for unassigned fund balance in the General Fund of 25% of the next fiscal year's budgeted General Fund expenditures and transfers out. This provides more than adequate cash flow to handle these monthly fluctuations, while providing a cushion against any major unexpected events. The unassigned fund balance is at (.3%), below the 25% target set for unassigned fund balance. The governing body has adopted a conservative General Fund budget for FY 2012, and should begin replenishing this fund balance to a level equal to the targeted amount over an anticipated five-year period.

The Statesboro Fire Service Fund was created in fiscal year 2008. This fund accounts for the operations of the Statesboro Fire Department, which serves all the citizens of Statesboro and county citizens within the five-mile fire district. This fund had a fund balance of \$484,439 at year-end compared to \$425,424 at the end of fiscal year 2010. This represents a \$59,015 or 13.9% increase.

The 2007 SPLOST fund's ending restricted fund balance was \$5,641,348 for fiscal year 2011. This is an increase of \$2,319,900 over fiscal year 2010. The reason is the City began receiving its portion of SPLOST in February 2010 for projects that were not started until mid- 2011.

The Proprietary Funds

The proprietary funds statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. Each of the fund statements give detailed information about their financial condition.

Budgetary Highlights

The General Fund – The revenue side of the budget was amended downward by \$309,034, or 2.9% primarily to reflect lower collections of fines and forfeitures. Overall, the City recognized revenues equal to 100.3% of budgeted revenues in the final appropriated budget. The total expenditure budget was decreased through budget amendments by \$12,991 or .1%. Overall, the City recognized expenditures equal to \$98,378 less than, or 99.2%, of budgeted expenditures in the final appropriated budget. In summary, the budget was underspent by .8%, while revenue estimates were .3% over.

On the revenue side of the budget, property taxes came in \$69,825 lower than the amended budget. Franchise fees came in \$120,746 more than budgeted. Licenses and Permits came in \$29,173 less than budgeted. The budgeted amount had been amended upward due to a slight increase in the construction industry. Fines and Forfeitures came in \$16,829 less than budgeted. In total, General Fund revenues came in \$25,283 more than the budgeted amount.

On the expenditure side, the City Manager's Office, the City Clerk's Office, Financial Administration, Information Technology, Engineering and Debt Service costs were considerably below the budgeted amounts. Police, Animal Control and Streets and Public Works exceeded the budget due to some end of year adjustments. Overall, the General Fund expenditures were \$98,378 less than budgeted.

Transfers in were \$66,822 below budget.

Fund Balance was budgeted to increase by \$20,157. However, fund balance increased by \$62,197 more than budgeted, to end at \$82,354 more than the previous year's fund balance.

The FY 2012 Budget for the General Fund has used very conservative revenue projections to build the fund balance as discussed earlier.

Capital Assets and Debt Administration

Capital Assets

The City's investment in capital assets, net of accumulated depreciation, for governmental (including the fleet management internal service fund) and business-type activities as of June 30, 2011 was \$25,662,398 and \$43,733,540 respectively, for a total of \$69,395,938. That compares to fiscal year 2010 numbers of \$25,932,859 and \$42,795,839 respectively, for a total of \$68,728,698. The fiscal year 2011 totals in this net investment were a 1% decrease for governmental and a 2.2% increase for business-type activities. The overall increase was 1% for the City as a whole. See Note 3D for additional information about changes in capital assets during the fiscal year and outstanding at the end of the year. The following table provides a summary of capital asset activity.

Capital Assets

	Governmental Activities		Business Activities		Total	
	2011	2010	2011	2010	2011	2010
Non-depreciable assets:						
Land	\$ 1,636,113	\$ 1,636,113	\$ 549,410	\$ 549,410	\$ 2,185,523	\$ 2,185,523

Less accumulated depreciation	13,549,726	11,846,405	32,287,108	30,624,650	45,836,834	42,471,055
Book value - depreciable assets	24,026,285	22,132,961	40,836,092	41,239,638	64,862,377	63,372,599
Percentage depreciated	36%	35%	44%	43%	41%	40%
Total book value	\$ 25,662,398	\$ 25,932,860	\$ 43,733,540	\$ 42,795,839	\$ 69,395,938	\$ 68,728,699

At June 30, 2011, the depreciable capital assets for governmental activities were 36% depreciated. This percentage is higher than the fiscal year 2010 amount of 35%.

The major increase in capital assets in fiscal year 2011 was several road projects and the acquisition of equipment for the police and fire department using grant proceeds.

In the City's business type activities, 44% of the asset values were depreciated at June 30, 2011. This percentage is higher than the fiscal year 2010 percentage of 43%.

The major increase in capital assets in fiscal year 2011 was the completion of well #10 and other water and sewer projects.

Long-term Debt

In fiscal year 2009, the capital leases increased by \$61,971; the bonded debt decreased by \$255,000; and the notes payable increased by \$975,068. Combined, this represented an increase of long-term debt of \$782,039.

In fiscal year 2010, the City issued \$15,040,000 in water and sewer refunding and improvement revenue bonds to advance refund water and sewer revenue refunding bonds of \$215,000 and several water and sewer notes payable totaling \$6,132,934. In addition, \$7,675,000 of the bond proceeds were provided to fund future water and sewer projects. Total long-term debt for the City increased by \$8,344,163 in fiscal year 2010.

In fiscal year 2011, the capital leases decreased by \$411,588; the bonded debt decreased by \$487,575; and the notes payable increased by \$181,846. Combined, this represented a decrease in long-term debt of \$717,317.

See Note 3G for additional information about the City's long-term debt.

Economic Conditions Affecting the City

As of November 2011, the local unemployment rate was 12.7%, which was higher than the state rate of 9.9% and the national rate of 8.6%. Our local economy is experiencing the effects of the national recession, declines in the financial markets, and the recent credit crunch caused by substandard home mortgages. New residential construction and home sales have declined significantly.

As in the past, a strong industrial base, a growing regional public university, a regional medical center and increasing medical specialties, and a regional retail base influence Statesboro's economy. This diversification should continue to help the local economy weather the current recession better than the nation as a whole.

The outlook long-term is considerably more upbeat. Coastal Georgia is projected to be one of the hottest real estate markets in the country over the next decade, as thousands of baby boomers seek inexpensive, warmer climates for retirement. That will fuel the housing, medical, and retail segments of our local economy as well. Georgia Southern University should continue its student body expansion. The new industrial park puts us in a prime position to benefit from additional industrial investment as the weakened dollar continues to attract capital to the United States. With our recent investments in water, sewer, natural gas, and roads, this community should be in an excellent position to benefit from these economic opportunities.

Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the City's Finance Department at 50 East Main Street, Statesboro, Georgia, 30458, or call (912) 764-5468.

City of Statesboro, Georgia
Reconciliation of Governmental Funds Balance Sheet
to the Statement of Net Assets
June 30, 2011

Total Governmental Fund Balances	\$	6,623,957
 Amounts Reported for Governmental Activities in the Statement of Net Assets Are Different Because:		
Capital assets used in governmental activities (excludes internal service funds) are not financial resources and therefore are not reported in the funds:		
Cost	\$ 38,795,899	
Less accumulated depreciation	(13,291,336)	25,504,563
 Other long-term assets are not available to pay for current- period expenditures and therefore are deferred in the funds:		
Property taxes		60,588
 The internal service funds are used by management to charge the costs of the operation and maintenance of the vehicle fleet workers' compensation, and health insurance to individual funds. Certain assets and liabilities of the internal service funds are included in governmental activities columns in the statement of net assets.		
		359,986
 Interfund receivables and payables between governmental funds are reported on the fund balance sheet but eliminated on the government-wide statement of net assets:		
Interfund receivables	\$ 752,901	
Interfund payables	(752,901)	-
 Liabilities, including capital leases, compensated absences and other post employment benefits payable are not due and payable in the current period and therefore are not reported in the funds but are reported on the statement of net assets:		
Capital leases payable	\$ (1,433,249)	
Other post employment benefits payable	(408,424)	
Compensated absences	(475,959)	(2,317,632)
 Net Assets Of Governmental Activities	 \$	 30,231,462

City of Statesboro, Georgia
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures
and Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2011

Net Changes In Fund Balances - Total Governmental Funds		\$ 2,329,440
 Amounts reported for governmental activities in the statement of activities are different because		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.		
Depreciation expense	\$ (1,730,456)	
Capital outlay	<u>1,541,981</u>	(188,475)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes:		
Deferred @ 6/30/11	\$ 60,588	
Deferred @ 6/30/10	<u>(109,360)</u>	(48,772)
Elimination of transfers between governmental funds:		
Transfers in	\$ 1,520,645	
Transfers out	<u>(1,520,645)</u>	-
Governmental funds do not report the cost of disposed capital assets but the cost is reported on the statement of activities		
		(65,596)
The internal service funds used by management to charge the costs of self-insurance and fleet management to individual funds are not reported in the government-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated.		
		(40,521)
Other financing sources for the inception of capital leases are reported on the fund level operating statement but are reported as a liability on the governmental-wide financial statements		
		-
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		
		331,413
Compensated absences and other post employment benefits (OPEB) reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated absences liability @ 6/30/11	\$ (475,959)	
Compensated absences liability @ 6/30/10	<u>476,209</u>	250
OPEB liability @ 6/30/11	\$ (408,424)	
OPEB liability @ 6/30/10	<u>119,767</u>	<u>(288,657)</u>
Change In Net Assets of Governmental Activities		<u>\$ 2,029,082</u>

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

The City of Statesboro (the “City”) was chartered by an act of the General Assembly of the State of Georgia. The City operates under a Council/Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, community development, community services and general administrative services. The City also operates two public utilities (water and sewer system and gas system) and provides sanitation services. The City and Bulloch County jointly operate a transfer station for transport of solid waste and an inert landfill.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The City also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities at the government-wide financial reporting level and to its enterprise funds at the fund reporting level, provided they do not conflict with or contradict GASB pronouncements.

The most significant of the City’s accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

The component unit columns included on the government-wide financial statements identify the financial data of the City’s discretely presented component unit. It is reported separately to emphasize that it is legally separate from the City.

A brief description of the City’s discretely presented component unit follows:

Downtown Statesboro Development Authority (the Authority) – The Authority is a public corporation created in 1981. The primary purpose of the Authority is to promote industry and trade in the downtown area. The City Council appoints one board member and provides its primary funding. The Authority is fiscally dependent on the City. There are no separate financial statements for the Authority.

Related Organizations

The Housing Authority of the City of Statesboro, Georgia is considered a related organization based upon the criteria in GASB Statement 14. The Housing Authority is a legally separate entity and the City does not appoint any of its board members. The City of Statesboro, Georgia is not able to impose its will upon the Housing Authority and a financial benefit/burden relationship does not exist between them. Therefore, based upon the criteria above, the Housing Authority of the City of Statesboro, Georgia is a related organization and is excluded from the reporting entity.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the City as a whole. The primary government and the component unit are presented separately within these financial statements with the focus on the primary government. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and grants and City's general revenues, from business-type activities, generally financed in whole or in part with service charges to external customers.

The statement of net assets presents the financial position of the governmental and business-type activities of the City.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which function the revenues are *restricted*.

Other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental and proprietary funds.

Major individual governmental and proprietary funds are reported in separate columns.

Fund Accounting - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses two categories of funds: governmental and proprietary.

Governmental Funds - Government funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

The General Fund – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund’s fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of the State of Georgia.

Statesboro Fire Service Fund – This fund accounts for revenues collected from city taxpayers and taxpayers in the county’s five mile fire district used to fund the City’s fire department.

2007 SPLOST Fund – This fund accounts for the special purpose local option sales tax collected pursuant to a 2007 referendum for various capital improvements within the City.

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. The proprietary funds are classified as enterprise funds and internal service funds. The City’s major enterprise funds consist of:

Water and Sewer Operating Fund – This fund accounts for the water and sewer provided to the City’s constituents.

Reclaimed Water System Fund – This fund accounts for the reclaimed water provided for irrigation to the City’s constituents.

Gas Operating Fund – This fund accounts for the gas services provided to the City’s constituents.

Solid Waste Collection Fund – This fund accounts for the solid waste collection program.

Solid Waste Disposal Fund – This fund accounts for the solid waste disposal program.

The City’s internal service funds account for the City’s health and workers compensation insurance and fleet management programs.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net assets. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net assets. The statements of changes in fund net assets present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase “available for exchange transactions” means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales taxes, property taxes, grants and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, interest and federal and state grants.

Deferred/Unearned Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue.

Deferred revenue is reported at the fund financial reporting level but reclassified as “*unearned revenue*” on the government-wide statement of net assets, where applicable.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. Assets, Liabilities and Fund Equity

1-E-1 Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or United States Government agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled water, sewer and gas charges are accrued as receivables and revenue at June 30, 2011.

1-E-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental and business-type activities columns on the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances on this statement. These amounts are ultimately eliminated from the total column on the statement of net assets.

1-E-4 Consumable Inventories

On the government-wide and the proprietary fund financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

1-E-5 Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2011, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved as this amount is not available for general appropriation.

1-E-6 Restricted Assets

Restricted assets represent sinking funds required by enterprise fund revenue bonds and designated as such by management, customer utility deposits, funds held specifically for water and sewer system improvements, and funds designated for capital purchases.

1-E-7 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the City fund financial statements. Capital assets utilized by proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the proprietary funds' statement of net assets.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars. The City’s infrastructure consists of roads, bridges, water and sewer lines and gas lines. Water and sewer lines and gas lines are classified as “improvements other than buildings”. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are expensed. Interest incurred during the construction of capital assets utilized by enterprise funds is capitalized.

All reported capital assets are depreciated except for land, right-of-ways and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City’s historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings	15 – 40 years	15 - 40 years
Improvements other than buildings	8 – 40 years	15 – 50 years
Machinery and equipment	5 – 20 years	5 – 15 years
Infrastructure	12 – 25 years	---

At the inception of capital leases at the governmental fund reporting level, expenditures and an “other financing source” of an equal amount are reported at the net present value of future minimum lease payments.

1-E-8 Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only “when due.”

1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of those funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are “due for payment” during the current year. Capital leases are recognized as a liability in the governmental fund financial statements when due.

*City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011*

Note 1 - Summary of Significant Accounting Policies (Continued)

1-E-10 Bond Premiums, Discounts and Issuance Costs

On the government-wide statement of net assets and the proprietary fund type statement of net assets, bond premiums and discounts are netted against bonds payable and bond issuance costs are reported as deferred charges. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts and bond issuance costs are deferred and amortized over the life of the bonds using the effective interest method.

At the governmental fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as an expenditure.

1-E-11 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance”. Fund equity for all other reporting is classified as “net assets”.

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e. items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council also may modify or rescind the commitment.

Assigned – Fund balances are reported as assigned when amounts are constrained by the City Council’s intent to be used for specific purposes, but are neither restricted or committed. Through resolution, the City Council has authorized the City’s finance director to assign balances.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies (Continued)

restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net assets are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

1-E-12 Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water, sewer, gas, solid waste, and the insurance benefits and fleet management programs. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund and include administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

1-E-13 Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-14 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and the after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated. Transfers between governmental and business-type activities are eliminated from the total column.

1-E-15 Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-16 Comparative Data

Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

Note 2 – Stewardship, Compliance and Accountability

2-A. Budgetary Information – The City adopts an annual operating budget for the general fund and each special revenue fund. A project budget is adopted for each capital projects fund. The budget resolution reflects the total of each department's appropriation in each fund.

All budgets are adopted on a basis consistent with GAAP.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 2 – Stewardship, Compliance and Accountability (Continued)

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. The City Manager may approve budget transfers within departments. Any change in total to a fund or departmental appropriation within a fund requires City Council approval.

During the year, the City Council approved budget revisions.

All unexpended annual appropriations lapse at year-end.

2-B. Excess of Expenditures over Appropriations

For the year ended June 30, 2011, expenditures exceeded appropriations for the following departments within the general fund:

Legal	\$ 2,959
Police	78,136
Animal Control	21,598
Streets/Public Works	51,161
Parks and Cemeteries	4,034
Arts Center	695
Community Development	119

These overexpenditures were funded primarily by underexpenditures in other departments.

Expenditures exceeded appropriations by \$31,067 in the Multiple Grant Fund and the Technology Fee Fund by \$21,734 and these overexpenditures were funded by additional revenues over budget and by available fund balance.

2-C. Deficit Fund Equities

The capital improvements program fund had a deficit fund balance of \$64,478 at June 30, 2011. The City plans to transfer funds from the water and sewer fund in fiscal year 2012 to eliminate the deficit.

The solid waste disposal fund had a deficit net asset balance of \$327,271 at June 30, 2011.

Note 3 - Detailed Notes on All Funds

3-A. Cash and Cash Equivalents

At June 30, 2011, the carrying amount of the City's deposits (i.e., checking and certificates of deposits) was \$17,150,910 and the bank balance was \$17,489,433. Of the bank balance, \$250,000 was covered by federal depository insurance and \$17,239,433 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

Cash & Cash Equivalent Reconciliation:

	Cash and Cash Equivalents
Fund Reporting Level:	
Governmental Funds - Balance Sheet	\$ 6,269,167
Enterprise Fund Statement of Net Assets	2,135,200
Enterprise Fund Statement of Net Assets - Restricted	8,347,006
Internal Service Fund Statement of Net Assets	399,537
Total	\$ 17,150,910

3-B. Receivables

Receivables at June 30, 2011, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility. The allowances for uncollectibles netted against receivables at June 30, 2011 follow:

Fund	Allowance For Uncollectibles
General	\$ 7,391
Water and sewer	181,078
Gas	93,957
Solid waste collection	58,324
Solid waste disposal	567

3-C. Property Taxes

Property taxes attach an enforceable lien on property as of January 1. Taxes are levied on or about October 20 of each year and are due and payable within 60 days of the tax bill mailing date. The City bills and collects its own property taxes.

Property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables (i.e. collectible in 60 days). For the year ended June 30, 2011, property taxes were levied on September 13, 2010 and were due December 20, 2010.

3-E. - Interfund Balances and Transfers

Interfund balances at June 30, 2011, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The City expects to repay all interfund balances within one year.

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Community Development Block Grant Fund	\$ 25,126

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, to segregate money for anticipated capital projects (e.g., SPLOST approved projects); to report enterprise fund transfers for the equivalent of franchise fees and property taxes as if the utility funds were privately owned; and to return money to the fund from which it was originally provided once a project is completed.

All City transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

3-F. Landfill Closure and Postclosure Care

State and federal laws and regulations required the City to place a final cover on its landfill site when it stopped accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Effective July 1, 1997, the City stopped accepting waste into its landfill. The remaining accrued landfill postclosure care costs liability at June 30, 2011, was \$1,579,273. This amount is based on what it would cost to perform all postclosure care in 2011. Actual costs may be higher due to inflation, unexpected mitigation requirements, changes in technology, or changes in regulations.

3-G. Long-Term Debt

Water and Sewer Refunding and Improvement Revenue Bonds - During the fiscal year ended June 30 2010, the City issued revenue bonds of \$15,040,000. The City issued the Series 2010 Water and Sewer Refunding and Improvement Revenue Bonds to advance refund Water and Sewer Revenue Refunding Bonds, Series 1995, with an outstanding balance of \$215,000, and ten Georgia Environmental Facilities Authority (GEFA) notes with an outstanding balance of \$6,132,934. Additionally, a portion of the net proceeds was deposited into the Water and Sewer System Fund Construction Account. The amount of outstanding bonds at June 30, 2010 was \$14,565,000.

The City pledges income derived from the constructed or acquired assets to pay debt service. The revenue bonds have interest rates ranging from 2.0 percent to 5.0 percent. The bonds require principal payments each April 1 and interest is payable semiannually on April 1 and October 1 each year.

Annual debt service requirements to amortize all obligations outstanding, as of June 30, 2011 follow:

Year	Principal	Interest	Total
2012	\$ 450,000	\$ 596,021	\$ 1,046,021
2013	465,000	579,021	1,044,021
2014	475,000	569,721	1,044,721
2015	480,000	560,221	1,040,221
2016	500,000	541,021	1,041,021
2017-2021	2,790,000	2,417,455	5,207,455
2022-2026	3,480,000	1,729,155	5,209,155
2027-2031	4,275,000	917,880	5,192,880
2032-2033	1,650,000	101,915	1,751,915
Total	<u>\$ 14,565,000</u>	<u>\$ 8,012,410</u>	<u>\$ 22,577,410</u>

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

Notes Payable – The City has entered into a number of notes with the Georgia Environmental Facilities Authority (GEFA), and One Georgia Authority with balances at June 30, 2011, as follows:

One Georgia Authority, payable in quarterly installments of \$8,334 including interest at 3% through April 1, 2022	\$ 311,396
GEFA (2006 L25WJA), payable in monthly installments of \$10,381 including interest at 4.28% through April 1, 2028	1,492,623
GEFA (2006-L25WJB), \$650,000 loan, \$621,295 drawn at June 30, 2011, payable in 240 monthly installments including interest at 4.28% after completion of related project	621,296
GEFA (2007-L31WJ), payable in monthly installments of \$3,247 including interest at 4.10% through March 1, 2009	479,371
GEFA (2008-L05WJ), payable in monthly installments of \$6,705 including interest at 4.10% through July 1, 2029	<u>1,026,226</u>
	<u><u>\$3,930,912</u></u>

Component Unit - Downtown Statesboro Development Authority

Note payable to BB&T, payable in monthly installments of \$5,000 including interest at a variable rate (5% at June 30, 2011), with a final payment of principal and interest due April 10, 2015	<u><u>\$ 724,646</u></u>
---	--------------------------

Annual debt service requirements to amortize all notes payable outstanding, as of June 30, 2011 follow:

Year	Primary Government			Component Unit		
	Principal	Interest	Total	Principal	Interest	Total
2012	\$ 160,500	\$ 150,816	\$ 311,316	\$ 24,353	\$ 35,647	\$ 60,000
2013	179,633	155,966	335,599	25,599	34,401	60,000
2014	187,056	148,543	335,599	26,908	33,092	60,000
2015	194,823	140,776	335,599	647,786	26,528	674,314
2016	202,889	132,711	335,600	-	-	-
2017-2021	1,148,446	529,463	1,677,909	-	-	-
2022-2026	1,267,363	278,913	1,546,276	-	-	-

Total	<u><u>\$ 3,930,912</u></u>	<u><u>\$ 1,571,394</u></u>	<u><u>\$ 5,502,306</u></u>	<u><u>\$ 724,646</u></u>	<u><u>\$ 129,668</u></u>	<u><u>\$ 854,314</u></u>

Capital Leases – The City currently has the following outstanding capital leases.

Capital Lease – City Hall - In 1995 the Downtown Statesboro Development Authority provided for the issuance of a Revenue Bond in the amount of \$1,500,000 to provide for the acquisition, renovation, and equipping of the old Jaeckel Hotel for the purpose of converting it to the new Statesboro City Hall.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

The Bond bears an interest rate of 70% of the prime rate but can never be less than 4.2% or more than 10.5%. Interest on the Bond is paid to Sea Island Bank by the City of Statesboro semi-annually on the first day of June and the first day of December beginning June 1, 1997. Principal payments are made in annual installments on December 1, each year beginning in 1997 and ending in 2022.

Upon payment in full of the debt the Downtown Statesboro Development Authority will convey the property to the City without further consideration.

The total cost for the project under the capital lease was \$1,733,719.

The lease requires annual payments as follows:

Year	Principal	Interest	Total
2012	\$ 62,000	\$ 37,485	\$ 99,485
2013	65,500	34,808	100,308
2014	69,500	31,972	101,472
2015	73,500	28,970	102,470
2016	78,000	25,788	103,788
2017-2021	465,000	74,173	539,173
2022	110,000	2,310	112,310
Total	\$ 923,500	\$ 235,506	\$ 1,159,006

Capital Lease – Georgia Municipal Association (GMA) –The City has entered into lease agreements with GMA to purchase the following equipment:

	Cost
2007 Tymco Street Sweeper	\$ 92,846
Motorola Communication Equipment	249,404
Police Office Furnishings	316,742
2008 Chevrolet Silverado	21,108
2008 F150 Truck	15,412
2009 F150 Truck	22,297
(2) 2008 East Tandem Trucks	129,590
2008 F250 Truck	18,036
2008 Peterbilt 320 Garbage Truck	202,834
Pierce Custom Contender Fire Engine	334,111
	\$1,402,380

The leases require annual payments without interest as follows:

Year	Principal
2012	\$ 282,644
2013	217,128
2014	148,677
2015	66,822
Total	\$ 715,271

Note 3 – Detailed Notes on All Funds (Continued)

Changes in Long-term Debt - Changes in the City’s long-term obligations consisted of the following for the year ended June 30, 2011:

<u>Primary Government</u>	Outstanding			Outstanding	Amounts Due
Governmental Activities	7/1/2010	Additions	Reductions	6/30/2011	in One Year
Capital lease - City Hall	\$ 982,000	\$ -	\$ 58,500	\$ 923,500	\$ 62,000
Capital lease - GMA	782,662	-	272,913	509,749	202,469
Other post employment benefits	124,209	298,866	-	423,075	-
Compensated absences	493,440	12,482	14,393	491,529	98,306
Total Governmental Activities	\$ 2,382,311	\$ 311,348	\$ 345,806	\$ 2,347,853	\$ 362,775
Business-Type Activities					
Water and sewer revenue bonds	\$ 15,040,000	\$ -	\$ 475,000	\$ 14,565,000	\$ 450,000
Unamortized bond premium	286,084	-	12,575	273,509	-
	15,326,084	-	487,575	14,838,509	450,000
Notes payable - water fund	3,414,117	319,794	114,395	3,619,516	136,233
Notes payable - gas fund	334,949	-	23,553	311,396	24,267
Capital lease - GMA	285,697	-	80,175	205,522	80,175
Landfill closure and post-closure care	1,697,688	-	118,415	1,579,273	119,058
Other post employment benefits	50,894	124,452	-	175,346	-
Compensated absences	173,914	13,082	-	186,996	37,399
Total Business-Type Activities	\$ 21,283,343	\$ 457,328	\$ 824,113	\$ 20,916,558	\$ 847,132
Component Unit					
Downtown Statesboro Development Authority					
Note payable	\$ 747,288	\$ -	\$ 22,642	\$ 724,646	\$ 24,353

The capital lease obligations for governmental funds will be paid from the General Fund and for business-type activities from the fund which incurred the capital lease obligation. The compensated absences and other post employment benefits liability for governmental funds will be paid from the General Fund and for business-type activities from the fund from which the employees' salaries are paid. Principal and interest payments related to notes payable for the City’s Water and Sewer System are financed from income derived from the operation of the Water and Sewer System. Principal and interest payments related to notes payable for the City’s gas system are financed from income derived from this system. The landfill closure and post-closure care liability will be retired from the solid waste disposal fund.

3-H. Pensions

Plan Description - The City’s defined benefit pension plan, the City of Statesboro Retirement Plan (the “Plan”), provides retirement and disability benefits and death benefits to plan members and beneficiaries. The Plan is affiliated with the Georgia Municipal Employees Benefit System (the “System”), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for cities in the State of Georgia. The City is assigned the authority to establish and amend benefit provisions of the Plan. The System issues a publicly available financial report that includes financial statements and required supplementary information. The report can be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

Funding Policy - Employees are not required to contribute to the Plan. The City is required to contribute at an actuarially determined rate. The minimum annual contribution requirements of the City are established by Public Retirement Systems Standards Law (Georgia Code Section 47-20-10).

Annual Pension Cost and Net Pension Obligation - For 2011, the City's annual pension cost of \$696,039 for the plan was equal to the City's required and actual contributions. The required contribution was determined as part of the January 1, 2011, actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included (a) 7.75% investment rate of return, (b) projected salary increases of 3.5% per year for inflation, (c) additional projected salary increases of 3.5% per year attributed to seniority/merit, and (d) no post-retirement benefit increase. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a ten-year period. The period, and related method, for amortizing the initial unfunded actuarial accrued liability is thirty years from 1982 and current changes in the unfunded actuarial accrued liability over fifteen years for actuarial gains and losses, twenty years for plan provisions and thirty years for actuarial assumptions and cost methods at a level dollar amount. These amortization periods, if applicable, are closed for this plan year.

Schedule of Funding Progress						
Actuarial Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL)	(3) Funded Ratio (1)/(2)	(4) Unfunded AAL/(Funding Excess) (2)-(1)	(5) Annual Covered Payroll	(6) Unfunded AAL/(Funding Excess) as a Percentage of Covered Payroll
3/1/2009	\$ 11,035,486	\$ 14,895,270	74.1%	\$ 3,859,784	\$ 10,180,533	37.9%
1/1/2010	14,933,885	14,298,326	104.4%	(635,559)	11,335,059	-5.6%
1/1/2011	16,365,217	14,726,435	111.1%	(1,638,782)	8,627,610	-19.0%

Schedule of Employer Contributions

Year Ended June 30	Annual Pension Cost	Percentage Contributed
2009	1,197,070	100%
2010	914,465	100%
2011	696,039	100%

3-I. Defined Contribution Plan

The City sponsors a defined contribution retirement plan qualified under Section 401(a) of the Internal Revenue Code for the Municipal Court Judge. The plan is administered by the Georgia Municipal Association. The City Council is responsible and has authority to amend the plan provisions. The City contributes 4 percent of salary to the plan. The employees are not required to contribute to the plan. The City did not make any contributions to the plan during the year ended June 30, 2011.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 3 - Detailed Notes on All Funds (Continued)

3-J. Fund Equity

As of June 30, 2011, governmental fund balances are composed of the following:

	General Fund	Statesboro Fire Service	2007 SPLOST	Other Governmental Funds	Total Governmental Funds
Nonspendable:					
Prepaid items	\$ 214,608	\$ 17,370	\$ -	\$ -	\$ 231,978
Restricted:					
Capital projects	-	-	5,641,348	-	5,641,348
Fire protection	-	467,069	-	-	467,069
Police	-	-	-	159,401	159,401
Community development	-	-	-	221,784	221,784
Unassigned	(33,145)	-	-	(64,478)	(97,623)
Total fund balances	<u>\$ 181,463</u>	<u>\$ 484,439</u>	<u>\$ 5,641,348</u>	<u>\$ 316,707</u>	<u>\$ 6,623,957</u>

Net assets on the government-wide statement of net assets as of June 30, 2011 are as follows:

	Governmental Activities	Business Type Activities	Component Unit
Investments in capital assets, net of related debt:			
Cost of capital assets	\$ 39,212,124	\$ 76,020,648	\$ 985,488
Less accumulated depreciation	13,549,726	32,287,108	35,314
Book value	<u>25,662,398</u>	<u>43,733,540</u>	<u>950,174</u>
Less capital related debt	1,433,249	18,974,943	724,646

Investments in capital assets, net of related debt	<u>\$ 24,229,149</u>	<u>\$ 31,190,564</u>	<u>\$ 225,528</u>

Note 4 – Other Notes

4-A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the city carries commercial insurance.

Pursuant to Title 34, Chapter 9, Article 4 of the Official Code of Georgia Annotated, the City of Statesboro became a member of the Georgia Municipal Association Workers' Compensation Self Insurance Fund (GMAWCSIF). The liability of the fund to the employees of any employer (City) is specifically limited to such obligations as are imposed by applicable state laws against the employer for workers' compensation and/or employer's liability.

Employees that qualify are covered for wage replacement and medical benefits when injured in the process of performing their job duties. The coverage is provided by GMAWCSIF and the City of Statesboro participates in the pool or group with other Georgia Cities. This lessens exposure due to the grouped resources that GMAWCSIF provides.

The fund is to defend, in the name of and on behalf of the members, any suits or other proceedings which may at any time be instituted against them on account of injuries or death within the purview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability, including suits or other proceedings alleging such injuries and demanding compensation therefore, although such suits, other proceedings, allegations or demands be wholly groundless, false or fraudulent. The Fund is to pay all costs assessed against members in any legal proceedings defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 4 – Other Notes (Continued)

The City’s responsibilities relating to the workers’ compensation pool is to pay all costs, other than those referenced in the above paragraph regarding litigation. The City prepays an estimated annual premium based upon claims experience. Then an audit is conducted of actual experience, with the difference in the premium being paid or refunded as applicable.

In fiscal year 2006, based on prior years loss experience and claims, the City elected to self insure a portion of its workers’ compensation claims by increasing the deductible to \$50,000 per occurrence and thereby significantly decreasing the annual premium.

In January 1991 the City elected to establish a self-insurance fund (an internal service fund) to cover all employee health insurance claims. The City makes payments to this fund on a monthly basis based on estimated premiums provided by the third party administrator to fund this program. Amounts are also withheld from employees by payroll deduction and paid to the self-insurance fund.

A third party administrator pays all claims from funds provided to them from the self-insurance fund’s bank account. The City carries specific reinsurance for claims from one individual within one year exceeding \$60,000. The claims liability of

\$425,728 reported at June 30, 2011 represents known claims incurred on or prior to June 30, 2011 and an estimate for claims that have been incurred but not reported. Changes in the fund’s claims liability for the year ended June 30, 2011 were as follows:

Date	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Fiscal Year Liability
2009	511,000	3,503,065	3,614,065	400,000
2010	400,000	3,729,990	3,594,990	535,000
2011	535,000	3,784,284	3,893,556	425,728

There were no significant reductions in insurance coverage from the prior year, and there have been no settlements that exceed the City’s insurance coverage during the past three years.

4-B. Contingent Liabilities

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the City believes such disallowances, if any, will be immaterial.

The City was a defendant in several lawsuits at June 30, 2011. In the opinion of City management, the outcome of these contingencies will not have a material effect on the financial position of the City.

4-C. Joint Ventures

Under Georgia law, the City, in conjunction with other cities and counties in the nine county coastal Georgia area, is a member of the Coastal Georgia Regional Commission (RC) and is required to pay annual dues thereto. During the year ended June 30, 2011, the City paid \$28,422 in such dues. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-33, which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from the Coastal Georgia Regional Commission, P.O. Box 1917, Brunswick, Georgia 31521.

Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 4 – Other Notes (Continued)

4-D. Hotel-Motel Lodging Tax

The City has levied a 5% lodging tax. A summary of the transactions for the year ended June 30, 2011 follows:

		Percentage of tax receipts
Lodging tax receipts	\$ 473,055	
Disbursements to the:		
Statesboro Convention and Visitors Bureau for promotion of tourism	(189,222)	40.0%
Statesboro Arts Council for performing arts center	(165,569)	35.0%
Downtown Statesboro Development Authority for promotion of tourism	(118,264)	25.0%
Total	\$ -	

All expenditures were for promotion of tourism as required by O.C.G.A. 48-13-51.

4-E. Other Post-Employment Benefits

Plan Description. The City sponsors a single-employer post-retirement medical plan. The plan provides medical, prescription and death benefits to eligible retirees and their spouses. At June 30, 2011, six retired employees were eligible to participate. Since the plan has no assets, reporting another employee benefit trust fund in the accompanying financial statements is not required nor was a separate or stand-alone report issued.

Funding Policy. The contribution requirements of plan members and the City are established and may be amended by the City Council. Plan members are not required to contribute; however, plan members receiving healthcare benefits pay for 50% of the health care insurance premium for individual and family coverage if the employee had 10 to 25 years of service at retirement and 100% of coverage if the employee has 25 or more years of service.

For the year ended June 30, 2011, the City made no contributions and instead elected to continue funding on a *pay-as-you-go* basis, which amounted to \$131,621 for 2011. These costs are recognized as an expense when claims or premiums are paid.

Annual OPEB Cost and Net OPEB Obligation. The City's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB Obligation.

City of Statesboro, Georgia
Notes to the Basic Financial Statements
For the Year Ended June 30, 2011

Note 4 – Other Notes (Continued)

Annual Required Contribution	\$ 553,773
Interest on Net OPEB Obligation	7,004
Adjustment to Annual Required Contribution	<u>(5,837)</u>
Annual OPEB Cost (Expense)	554,940
Contributions Made	<u>(131,621)</u>
Increase in Net Obligation	423,319
Net OPEB Obligation (BOY)	<u>175,103</u>
Net OPEB Obligation (EOY)	<u><u>\$ 598,422</u></u>

The City’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009-2011 is as follows:

Fiscal Year Ended	Annual OPEB Cost	OPEB Cost Contributed	Net OPEB Obligation
6/30/2009	\$ 110,899	21%	\$ 87,551
6/30/2010	110,900	21%	175,103
6/30/2011	554,940	24%	598,422

Funded Status and Funding Progress. As of July 1, 2010, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was \$3,989,988 and the actuarial value of assets was \$0 resulting in an unfunded actuarial accrued liability (UAAL) of \$3,989,988. The covered payroll (annual payroll of active employees covered by the plan) was \$10,109,447 and the ratio of the UAAL to the covered payroll was 39.5%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2010 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer’s own investments calculated based on the funded level of the plan assets at the valuation date, and an annual healthcare cost trend rate of 7% initially, reduced by decrements to an ultimate rate of 5% after ten years. The actuarial value of assets was determined using a standard balanced portfolio expectation for retirement plan asset returns. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2010 was 30 years.

4-F. Subsequent Events

Management has evaluated subsequent events through December 29, 2011, the date that the financial statements were available for issue. No subsequent events were noted.

Notes:

¹ The City implemented GASB Statement No. 34 in fiscal year 2003, therefore, only nine years of government-wide financial data is presented.

² Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted only when (1) an external party, such as the State of Georgia or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City.

Notes:

¹ Overlapping rates are those of Bulloch County governments and the State of Georgia that apply to property owners within the City of Statesboro.

² The State of Georgia levies one quarter of one mill on each county's taxable property to help finance their certification of each Georgia county's tax digests.

Notes:

¹State law does not authorize the City to directly levy a sales tax, however, the City has an agreement with Bulloch County that they will receive amounts from both the 2002 and 2007 special purpose local option sales taxes.

²The current special purpose local option sales tax was approved effective October 1, 2007 and expires September 30, 2013.

³Effective January 1, 2004 the Bulloch County Board of Education began levying a 1% special purpose local option sales tax.

Notes:

Details regarding the City's outstanding debt can be found in the notes to the basic financial statements.

¹ In fiscal year 1997, the City entered into a lease agreement with the Downtown Statesboro Development Authority in the amount of \$1.5 million to provide for the acquisition, renovation and equipping the old Jaeckel Hotel for the purposes of converting this building to city hall.

Source:

¹ Bulloch County Board of Education

Notes:

² Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City.

³ For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using assessed property values. Applicable percentages were estimated by determining the portion of another government unit's assessed value that is within the City's boundaries and dividing it by each unit's total assessed value.

To the City Council
City of Statesboro, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Statesboro, Georgia, as of and for the year ended June 30, 2011, which collectively comprise the City of Statesboro's basic financial statements and have issued our report thereon dated December 29, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Statesboro's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Statesboro's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Statesboro's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial

reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described below as 2011-1 and 2011-2 that we consider to be significant deficiencies in internal control over financial reporting. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

2011-1 Inadequate tracking of additions to capital assets for governmental activities

A complete listing of additions to capital assets for governmental activities was not compiled and provided to the auditors for the year ended June 30, 2011. The City's purchasing policy indicates that the purchasing manager is required to maintain the City's capital asset records. The City should implement procedures that require each department and either the purchasing manager or accounts payable personnel to forward all information on capital asset purchases to the finance director at least annually to be recorded in the City's government-wide financial statements.

City response: We concur with this finding, and will implement procedures that require each department and either the purchasing manager or accounts payable personnel to forward all information on the capital asset purchases to the finance director at least annually to be recorded in the City's government-wide financial statements.

2011-2 Inventory costing

During our testing of unit costs for various items in inventory for the fleet management internal service fund, we noted several discrepancies in the unit cost used for reporting inventory at June 30, 2011. The unit price used to cost the year end inventory should be the latest cost paid for those items held in the year end inventory. We also noted an error in the addition of inventory costs for the water and sewer enterprise fund resulting in a \$60,488 overstatement.

City response: We concur with this finding, and we will implement procedures to make sure each department with year end inventory understands to use the latest cost for purchases of items held in inventory to properly record inventory costs in the City's year end financial statements. We will also implement procedures to verify calculations when compiling total inventory costs for each fund.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Statesboro, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City of Statesboro, Georgia's response to the findings identified in our audit is described above. We did not audit the City of Statesboro's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
