

City of Statesboro Opioid Settlement Reimbursement Grant Program

Introduction & Background:

The State of Georgia is actively responding to the opioid crisis, a public health emergency that has caused widespread harm across communities. As part of a national effort to address the impacts of opioid misuse, Georgia has entered into settlements resulting from litigation against major pharmaceutical companies and distributors. These funds are earmarked for initiatives aimed at curbing the opioid crisis and bolstering future abatement projects. Funds are dedicated to supporting a range of services related to Opioid Use Disorder (OUD), including prevention, treatment, harm reduction, and recovery support. These services target at-risk populations for OUD, individuals diagnosed with OUD, OUD with additional polysubstance use, OUD co-occurring mental illness. Opioid Settlement Funds may not be used for expenses or purposes that do not align with the allowable uses described as set forth in: [Exhibit E Opioid Remediation Uses](#).
